The University of Miami School of Nursing & Health Studies offers courses leading to the degree of Bachelor of Science in Health Science. The programs of study provide the foundation for graduate education in specialized health professional fields.

According to the US Bureau of Labor Statistics, of the 22 major occupational groups, employment in healthcare support occupations is expected to grow most rapidly (34.5 percent). One-third of the projected fastest growing occupations are related to health care, reflecting expected increases in demand as the population ages and the health care and social assistance industry grows.

**Program Highlights**

- Research opportunities with faculty
- International Education “Mini-Mesters”
- Academic Advisors to assist with graduate health professional school preparation

**Health Science Tracks**

- Pre-medicine
- Pre-occupational Therapy
- Pre-pharmacy
- Pre-physical Therapy
- Management and Health Policy
- Health Sciences General

**Admission Requirements**

- Admitted freshmen in the 75th & 25th percentile have mid-range SAT scores of 1400 and 1270 respectively.
- The average accepted transfer student has a 3.4 grade point average.

BSHS students can also choose a plan of study that will allow them to complete pre-med requirements.
